MODECOM Tablet FreeTAB 9704 IPS2 X4

No speed limit – fastest CPU

A Quad-Core CPU is the cutting-edge central processor unit which is the main component of MODECOM FreeTAB X4 series. AW A31, ARM Cortex-A7 is currently one of the fastest and most powerful portable processors and as such provides outstanding performance. All processes are separated evenly between four independent CPU cores each clocked at 1.0 GHz. This makes it easy perform several tasks at the same, with even more tasks running in the background. Additional 1 MB of cache CPU allows ultra-fast speed of key processes with no need for using RAM memory. 1 MB memory in three times more than used in average models.

With 2 GB of RAM DDR3 memory this product stands for undeniable efficiency. Dual 64-bit control bus for RAM memory is able to send more data into RAM memory. In practice this means, that all processes run more than two times faster than average tablet.

Most advanced GPU

MODECOM FreeTAB 9704 IPS2 X4 is equipped with advanced 8-core graphic processor unit PowerVR SGX 544 MP2. It allows you to utilize features which were previously unavailable for mobile devices. This tablet lets you smoothly playback cinema quality 4K x 2K (4096 x 2160) movie files. It is two times more than popular Full HD resolution. All the latest advanced 3D-based games and apps are also supported. The eight independently operating cores make it is possible to decode up to four video streams (4 x PIP) at the same time. Each video stream with equal outstanding quality and crisp details.

MODECOM Tablet FreeTAB 9704 IPS2 X4

Superior New Generation IPS2 display

MODECOM FreeTAB 9704 IPS2 X4 is equipped with top-notch, technologically advanced New Generation IPS2 display. This screen features a superior QXGA resolution of 2048 x 1536 pixels bringing you totally new experience. Compared to traditional IPS screen, the advanced New Generation IPS2 provides excellence of natural, bright colors and sharp details.

The pixel density of 264 PPI (Pixels-Per-Inch) is the highest on the market which stands for amazing visual quality of all images and videos. This is twice the PPI of standard IPS.

With wide viewing angles up to 179 degrees, no matter where you stand, or how many people are watching – you will all see everything sharp, clear and bright. A glass layer on the screen surface guarantees comfort and protects the screen from scratches. Advanced multitouch feature supports up to 10-points at the same time which means more control for gaming and all apps you can imagine.
